Addendum #1

1).

Question:

- Zones R4 and L5 do not require any clearing, correct?

Answer:

- All trees within the clearing limits are to be taken down, Zones R4 and L5 require minimal to no clearing to meet the specifications.
- Amend Section 201-3.02 Clearing, paragraph 8 to read:
“25R – All trees and vegetation will be taken down, salvageable trees will be stockpiled at designated locations and the stumps ground flush with the ground. The clearing boundary line for the east end of 25R will follow a line defined by the top of the ridge and field marked with flagging by SDSWCD.”

2).

Question:

- What is the required percentage of the performance/payment bond?

Answer:

- The performance and payment bonds are to be for the full amount of the contract

3).

Question:

- Are the stockpile areas staked in the field?

Answer:

- The stockpile areas are not staked in the field, the stockpile locations are situated to be outside the 500' off-set Clear Zone but within the project clearing limits, and located to facilitate maintainable access from existing trails.

4).

Question:

- If the proposals are submitted electronically then how do you want the required proposal guarantee to accompany it?

Answer:

- The guaranty shall be unconditionally payable to the Salcha-Delta Soil & Water Conservation District and shall be in the form of an acceptable paper Bond (SDSWCD Proposal Bond Form), an electronic bond acceptable to the SDSWCD, a certified check, a cashier's check, or a money order.
- If using a certified check, cashier's check or money order, it must be received by our office prior to the RFP submittal deadline, an electronic copy is not acceptable.
- Attached is the SDSWCD Proposal Bond Form,

Question:

- Regarding the selective tree removal. In the event that it is not possible to reach the selective tree to either salvage or chip it without clearing a path to it can the tree be fell and left in place?

Answer:

- Yes. Amend Section 201.-3.05 Selective Tree Removal to read "...Cut off designated trees flush to the ground surface and leave the tree in place. Trim branches and cut tree as needed so that the entire length of the tree lays in contact with the ground."
